

# npower

NPower is a company that mobilizes the tech community to provide individuals, nonprofits, schools and corporations the access and opportunity to build tech skills and achieve their potential goals.

## Client Requirement

The client required the TCC portal to allow for easy registration by volunteers, non-profits and schools for corporations to track their activities.

## Enzigma Solution

We prepared an application where TCC can invite nonprofit organizations and schools to get registered to the portal and post their IT related projects to find appropriate volunteers to work with.

## Key Features

Creation of automated project suggestions for volunteers, user friendly and responsive UI for registration and follow up reminders for suggestions created and projects posted.

## Technology Used

TECHNOLOGY

Here's a list of all the platforms & technologies that were used in making this project possible.
